

# Night-time curfew: stay inside

On 23 January a night-time curfew will come into force in the Netherlands. The aim of this drastic measure is to further reduce the amount of people coming into contact with each other so that we can stop the spread of coronavirus.

Between 21.00 and 4.30 you are not permitted to be outdoors.

## Valid reasons to be outdoors during curfew hours:

 In the event of an emergency.

 To work.

 To provide urgent medical or other assistance to a person or animal, or obtain this.

 To travel abroad or return home from abroad.

 To walk a dog on a lead. Do this alone.

 To comply with a summons issued by a court or public prosecutor.

 To attend a funeral.

 To sit an exam (*secondary vocational education (MBO) and higher education (HBO and universities)*).

If it is necessary for you to be outdoors, you may need to carry a declaration (or declarations) with you. You can find the declaration forms on [government.nl/curfew](https://www.government.nl/curfew).

If you go out during curfew hours without a valid reason, you risk being fined €95.

The measure will apply from 20.00 on 23 January until 04. on 10 February.

alleen samen krijgen we  
corona onder controle
